Denver, Colorado 80262

May 16, 2007

Dear <<child name>>:

Here is a newsletter from the “Colorado Kids Sun Care Program.” It is about how to stay safe in the sun. The newsletter tells you about trees and how trees can shade your skin from the sun. You will also find a kit that you can use to plant your own shade tree. The kit will help you learn more about the importance of trees.

We hope you will read the newsletter and plant the tree seeds.

Sincerely,

The Colorado Kids Sun Care Program

April 30, 2007

Dear <<child name>>:

Here is another newsletter from the “Colorado Kids Sun Care Program.” It is about the sun and how to stay safe in the sun. We are also sending you a backpack that you can use to carry your sun hat, sun clothes, swim shirt, sunglasses, and sunscreen. You will find some sunscreen with your backpack, and a bag of UV beads that will help you learn more about the sun.

We hope you will read the newsletter and do the experiments with your new UV beads. We also hope you will use the backpack to carry all of the things you need to stay safe in the sun.

Sincerely,

The Colorado Kids Sun Care Program
